

The perfect bra for a beautiful journey.

Its internal structure uses different types of fabrics to keep the base of the breasts in place while remaining completely comfortable for your patient.

This specialized bra is designed to provide the right support needed after an inframammary breast augmentation.

The JOY[®] Bra provides pressure on the lower and outer sides of the breasts to help maintain the implants in the desired position.

This bra is included as part of the JOY bundle.

It comes in black color.

Components come in a reusable plastic bag for safekeeping

It includes a matching pressure band in case it is needed. The band attaches to hooks on the side of the bra to prevent it from moving.

Functional back support to ensure comfort.
